

We have the right to choose the broadcaster, if this is a legal media, no matter the technical element (satellite or not). In this globalized world leading by this Patriotic country we need and demand the kind of information and programming of XM. Please reject the NAB'S petition 04-160, I demand the right to maintain my country like the better democracy in the History, for my country, for my family, for the future of the free society. Your country, my country, is constructed, day by day with the power of innovation, creative ideas and free competition. Never with the darkness of selfish and retrograde acts.
